HI-SCAN 145180

Feature highlights

- ★ Universal X-ray system for palletized items
- ★ Excellent image presentation (optimized X-ray geometry)
- ★ Outstanding image quality with new HiTraX electronics
- ★ New HI-MAT Plus technology for advanced material distinction

Additional highlights

- ★ Typical penetration: 30 mm of steel
- ★ The HI-SCAN 145180 has been specially designed to meet the needs and applications of warehouses, carriers, forwarders and couriers for airports (palletized Lower Deck - Cargo).
- ★ The HI-SCAN 145180 is a low energy (140 kV) X-ray inspection system with tunnel dimensions of 1450 mm (57") width and 1800 mm (71") height. It is especially suitable for the inspection of air cargo transported on standard Euro, British or US pallets.

ASTROPHYSICS XIS 1517

A PC-based System

- ★ The XIS-1517 is a PC-based system incorporating the latest electronic technology with an enhanced modular design. The XIS-1517 utilizes a high-speed computer that implements advanced, complex algorithms in real-time operations.

Designed for Crates and Pallet-size Containers

- ★ **TSA QUALIFIED.** The ideal solution for screening pallet-size containers for airport and seaport cargo applications. The tunnel opening of 1,499 mm (59.0") wide by 1,703 mm (67.0") high is designed to scan all cargo containers and view them clearly through its high-resolution, high-penetration display system. The control panel and imaging system of the XIS-1517 are ergonomically designed with operator comfort an important feature of the system. The operator workstation is designed to be locally or remotely positioned relative to the x-ray machine.

Specifications

Tunnel Opening (W x H)	1504 mm x 1703 mm / 59.2" x 67.0"
Dimensions (L x W x H)	6702 mm x 2591 mm x 2257mm / 263.8" x 102" x 88.8"
